

How can I make decisions better and faster?

MACROPOINT
LITE

Take Control of Your Loads!

- Track your shipment real time from loading through delivery.
- Cell phone technology – hands free!
- Mapping available to pinpoint shipment location during each tracking inquiry!
- Access current location of shipment, delivery ETA's, and other real time shipment information!

Clients love the shipment transparency. They save money by eliminating guesswork. Enabling better coordination - no more scheduling errors with back charges and detention.

Drivers love it because it makes communication safe and accurate.
